PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate with hands-on experience in full stack web development and UI/UX design. Proficient in Python, JavaScript, Flask, Django, and Figma. Passionate about building user-centric, scalable applications. Seeking opportunities in software development, web development, and UI/UX design roles.

EDUCATION

B.Tech – Computer Science & Business Systems

2023 – 2027

KGiSL Institute of Technology, Coimbatore | CGPA: 7.2 / 10

TECHNICAL SKILLS

Languages: Python, Java, JavaScript | **Web Technologies:** HTML, CSS, Flask, Django

Database: MySQL | **UI/UX:** Figma, Wireframing, Prototyping | **Tools:** Git, GitHub, VS Code

INTERNSHIP EXPERIENCE

Full Stack Developer Intern

1 Month

Accent Techno Soft, Coimbatore

- Developed and integrated frontend and backend components for web applications using Python-based frameworks.
- Collaborated with the development team to build scalable, user-friendly full stack web solutions.
- Gained practical experience in REST API development, database management, and deployment workflows.

PROJECTS

Expense Tracker | Flask, HTML, CSS, JavaScript, MySQL

May – Jun 2025

- Built a secure full-stack expense tracking app with automated monthly financial report generation and interactive data visualizations.

Job Screening Automation System | Python (Flask), HTML, CSS, MySQL

Jun – Jul 2025

- Developed a full-stack recruitment automation system to intelligently shortlist candidates and reduce HR screening time.
- Designed candidate matching logic using Python and built an intuitive web interface for HR teams.

Privacy Guardian AI – Ethical Face Search & Privacy Alert System

2025

Flask, OpenCV, Generative AI, HTML, CSS, MySQL

- Built a cybersecurity application for digital identity and image privacy protection using ethical face detection via OpenCV Haar Cascade.
- Integrated Generative AI for privacy risk explanations; applied SHA-256 hashing, CSRF protection, and SQL injection prevention.

NewtriEat – Health-Focused Food Delivery App | UI/UX Design Project | Figma

2025

- Designed a premium health-focused mobile app with personalized nutrition, diet plans, food tracking, and real-time order management.
- Created the Verdant Precision design system in Figma with consistent typography, color palette, and high-fidelity prototypes.

CERTIFICATIONS

Data Science Methodology – IBM, Coursera

Sep – Oct 2025

Data Structures and Management with MySQL – Meta, Coursera

Apr – May 2025
